REFERENCE  NEGATION DATE (If required)  REGATION DATE (If required)  REGATION DATE (If required)  SECRET/WNINTEL  This model has been prepared in response to an NPIC Imagery Exploitation Group requirement. Detailed analysis and specifications were provided by the requester.  DESCRIPTION  1. (S/D) This model depicts an SS-20 mobile IRBM remote site in the western USSR. This is a scale model of Rechitsa SS-20 Remote Site 3. The two individually secured sections consist of a battalion-sized operations area which includes a launch unit and a support area.  2. (S/D) The model will be used to demonstrate the decentralized deployment pattern, an altered practice from the previously observed deployment pattern of the SS-20 missile system. The Soviets had	TALLATION OR ACT	IVITY NAME			COUNTRY
